**Winners - Gold Jupiter Award**

Montreal International Fireworks Competition 2015, 2017

**Alton Towers Ultimate Fireworks**

Designed and presented by Jubilee Fireworks since 2010

## Welcome to our 2019 Brochure

We are delighted to present our new brochure, featuring our well-established favourites and several new lines for 2019. Quality and safety are our key priorities and all of our DIY packs are manufactured to the highest standards.

Here are just three good reasons to select **Jubilee Fireworks** to provide your display, whether DIY or operator-fired:

### We have the experience

At Jubilee, we have been supplying top quality fireworks since 1987 and have a wealth of experience in advising our clients, to ensure that their display is both safe and spectacular. Over a period of three decades, we have become one of the most respected companies in the fireworks industry - a reputation gained through first class customer service and support.

### The expertise

Fireworks are our business, pure and simple. We go to great lengths to ensure that our fireworks are of the highest quality, perform well, and are safe to use. If you use Jubilee to provide a professional operator-fired display, you can be sure that our staff are trained to the highest national standards.

We never promise what we cannot deliver, which explains why many of our clients have been with us from the very beginning! All of our products are 100% compliant with strict UK legislation and adhere to the new EU standards, with all items CE marked.

### The reputation

Our display team is known throughout the world for the quality of its work in staging large-scale spectacles. In fact, we are the UK's most awarded display company - having gained prizes for our displays in the UK, Monaco, The Philippines, Macau and Belgium. Jubilee are contractors for the UK's largest annual seasonal display at Alton Towers resort and we also organise the Festival of Fireworks at Catton Hall.

Pre-eminent in our long list of achievements is the 'Gold Jupiter' Award at the 2015 Montreal International Fireworks Competition, the most prestigious event of its kind in the world. We returned to Montreal in August 2017 and were awarded Gold for a second time - a remarkable achievement for the company in its 30th anniversary year.

Our operator-fired service is available for smaller private events including weddings, private parties, corporate and larger school displays. Regardless of the size and scope of your event, Jubilee's clients receive the same care and attention to detail that we devote to our large scale spectacles.

## SPECIAL OFFER!

This proved to be so popular in 2018 that we are repeating it this year; a twin-pack of 36 shot barrages at **two-for-the-price-of one**.

### Tornado and Twister (Twin Pack) £60.00

**Tornado** offers great effect and duration from this large calibre 36 shot barrage containing whistling tails to massive red palm with white glitter bouquets to green palm with white glitter bouquets and a finale flurry of 12 shots. Approximately 50 seconds duration.

**Twister** produces stunning big bore effects opening with thick silver, green and red comet tails before breaks of silver, green and red wave to blue stars and golden flying fish with a finale of whistling tails to reports with silver glitter and crackling. Duration approximately 50 seconds.

### HIGH POWER PYRO

Many of our fireworks (including all large rockets) are designated as 1.3G. In pyro terminology, this is 'High Power' and is designated by this hazard warning symbol. The law requires us to pack fireworks of this type in a mesh cage for transport purposes.

# NEW for 2019

Every year we strive to introduce new and innovative effects to ensure that your display offer the best in modern firework technology and entertainment. This year is no exception, and we are pleased to introduce to new barrages **Odyssey** and **Quantum** to our range of exciting 'single ignition' fireworks.

**Odyssey** is an excellent long-duration barrage containing an impressive range of effects including red star, blue star to white strobe, brocade crown with green strobe, blue, red and green palms, silver palm to crackling followed by crackling flower time rain.

**Quantum** is a breathtaking 100 shot barrage with stunning gold blink mine rising to gold blink with blue stars, gold blink with green stars, gold blink with red blink, gold blink and gold willow, gold blink with silver blink. Faster firing (45 seconds) for greater impact.

## FUND RAISING

**Spend £500** or above and take advantage of our special offer on Sparklers and Literopes:

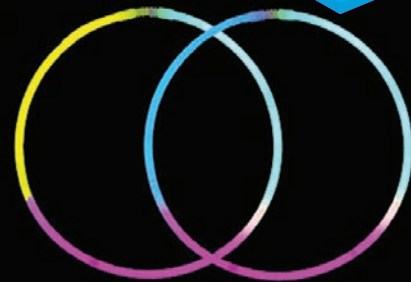

### Literopes

22" (Tri-colour) Literope Necklaces: Tube of 50. Recommended Selling Price £1.00 - £2.00 each  
Standard price £25.00 **Offer Price £20.00**

### Sparklers

10 Packs of (5) 18" Mega Golden Sparklers - **£15.00**  
**Special Bulk Buy Purchase**  
144 Packs of (5) 18" Mega Golden Sparklers [Total 720] - **£130.00**  
Recommended selling price £1.50 per pack [Total Sale Value £216]

*Sparklers are always popular with children and will add revenue to all organised events. It is recommended to set up a roped off area for the sale and supervised use of sparklers, similar to a boxing ring. This has the advantage of containing the spent wires from the used sparklers, and is a safety precaution as well. Sparklers are recommended for use by children over 5 years old.*

## TRAINING

Our one-day training course is aimed at anyone who really wants to learn more about fireworks and get the best out of their display. The course is presented in a relaxed and interesting way, by trainers who have many years experience in the fireworks industry.

All aspects are covered, including:

- **Different Firework types**
- **Selecting a site**
- **Health and Safety**
- **Risk Assessments**
- **Designing the display**
- **Setting up and firing the show**
- **Getting the best from your display**

**Course fees:** £50 per person, to include a buffet lunch Two free places for clients spending a minimum of £500. Date - to be advised (Midlands Location). Please check our website for details.

## Operator Fired Displays

Our operator-fired display service is entirely personal from beginning to end and is suitable for clients who have larger budgets (minimum £1500 in the main November season). The service includes the provision of all fireworks, specialist show design, trained operators, specialised explosives transport, and extensive insurance cover. All outdoor locations are catered for and a preliminary site visit is arranged to discuss safety aspects and the creative content of your show.

Operator displays include more powerful aerial fireworks (not available to the general public) and a wider variety of effects. We can also create wonderful 'pyro-musical' displays where the firework effects are choreographed to a musical sound track. In recent years, we have developed a range of 'themed shows' which have proved to be extremely popular.

Our display team has an international reputation and our list of UK Clients includes Alton Towers Resort, numerous local authorities, IKEA, BMW and many Round Tables throughout the UK.

The duration and impact of a firework display is not entirely a question of budget. In the larger displays, additional value is given by increasing the intensity of firing and using larger individual fireworks.

In our opinion and experience, the best impression is obtained if the display is fired briskly with continually changing effects, leading to a breathtaking grand finale. We do not recommend extending a show beyond 20 minutes. In some cases (weddings and concerts, for example) five to ten minutes is sufficient.

#### Our operator-service is used for

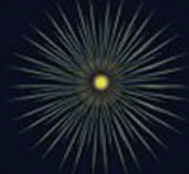

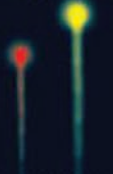

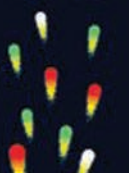

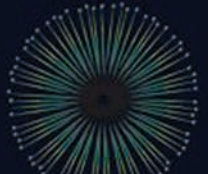

- Traditional Bonfire Night Celebrations
- Halloween
- Christmas Lights Switch-Ons
- Weddings
- Celebrations
- Corporate Events & Promotions

# Firework Effects Glossary

<p><b>Brocade</b></p>  <p>Common term that describes an effect of woven gold clusters usually bound together within a star burst.</p>	<p><b>Chrysanthemum</b></p>  <p>A perfectly spherical burst of tailed stars, very much like the flower it represents.</p>	<p><b>Comet</b></p>  <p>A star or other projectile which leaves a glittering, persistent trail behind it.</p>	<p><b>Crossette</b></p>  <p>A set of stars that each split into four or five stars and leave a trail as they map the skies.</p>
<p><b>Green Bees</b></p>  <p>A swarm or cluster of points of light that move and dissipate under their own power. Similar to Fish but less vigorous and generally less persistent.</p>	<p><b>Glitter</b></p>  <p>A constant spray of strobing glitter effect usually referring to cones and fountains</p>	<p><b>Palm</b></p>  <p>Bright arms of cascading, long lasting stars, shaped to permeate outward like the branches of a palm tree, usually made up of gold or silver stars.</p>	<p><b>Pearls</b></p>  <p>A set of bright glowing stars that do not leave a trail but silently rise and dissolve into the heavens.</p>
<p><b>Peony</b></p>  <p>Well used term to describe a perfect expanding sphere to stars that usually change colour as they burst outwards.</p>	<p><b>Pistil</b></p>  <p>A central effect sometimes palm like that can be added to a Peony or Chrysanthemum for bigger impact.</p>	<p><b>Silver Fish</b></p>  <p>Invariably silver and preceded by a beautiful blue tracer star, they wriggle and swim away from the centre in a silently mesmeric dance.</p>	<p><b>Spinner</b></p>  <p>An aerial effect that is usually accompanied by a whirling sound as the stars spin and whirl individually and synchronised to others.</p>
<p><b>Stars</b></p>  <p>A glowing, flaming ball of coloured light or colourless crackle that can rise on their own or burst into variegated mini star-shells.</p>	<p><b>Strobe</b></p>  <p>An effect that flickers and flashes in the sky like a gallery of flash bulbs.</p>	<p><b>Tail</b></p>  <p>The comet like trail that is left behind the star.</p>	<p><b>Willow or Falling Leaves</b></p>  <p>A star burst where all the stars "fall" out of the rocket or star-shell and gently drift down to earth to give a delightful effect, best in gold.</p>
